International Clothing Symbol Decoder

Symbol	Meaning	What It Means	Correct Action
	Machine Washable	Safe to wash at home using basic detergents.	Use your home washing machine with cool/warm cycle.
	Hand Wash Only	Wash gently in sink with cold water. Do not wring or twist.	Lay flat to dry — never use spin cycle.
	DRY CLEAN ONLY	DO NOT WASH AT HOME. Water ruins fabric shape and color.	Send immediately to LaundryKhalas — we collect FREE.
	Do Not Bleach	NEVER use Clorox/bleach — yellow-stains whites, ruins delicate fibres.	Use colour-safe, gentle detergent only.
	Low Heat Iron	Synthetics/Silk only. High heat melts or shines fabric.	Set iron to lowest 1-dot setting before pressing.
	Do Not Iron	Do not apply any heat directly to this garment.	Use hand steam only or send for professional pressing.

The 3 Golden Rules for Dubai Emergency Stains

Rule #1: Saffron, Curry & Cooking Oil Stains

✓ DO

- Immediately blot excess oil with a dry tissue.
- Sprinkle talcum powder or cornstarch over the stain to absorb the oil.

✗ DON'T

- NEVER use hot water — heat permanently sets saffron pigment into fabric fibers.

Rule #2: Oudh Oil, Perfume & Bakhoor Smoke Marks

✓ DO

- Gently press a dry microfiber towel against the mark.
- Let it absorb naturally without rubbing.

✗ DON'T

- NEVER rub with wet wipes — alcohol causes watermarks and color fading on silk/abaya fabrics.

Rule #3: Red Wine, Coffee, or Tea on Carpets / Sofas / Clothes

✓ DO

- Flush gently from the BACK of the fabric with cool water to push tannin particles out.
- Blot — never rub — with a clean white cloth.

✗ DON'T

- NEVER scrub with harsh bar soaps or laundry powder — this spreads and sets the stain.
